

KS-SUP-400-D

The compact

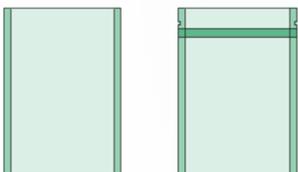

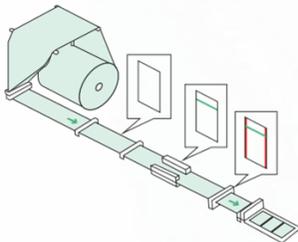

MINIMUM **8** SERVO SYSTEM

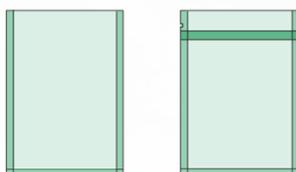

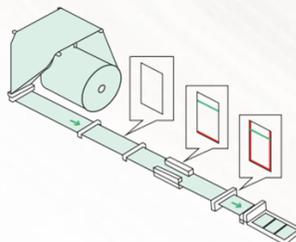

A compact **pouch-making machine** designed to handle standard materials, including mono-materials like PE and PP. Its fast changeover, minimal start-up waste, and intuitive operation make it an ideal solution for short-run production, delivering efficiency and ease without compromising quality. Ideal for production environments with little space availability.

TYPES OF POUCHES

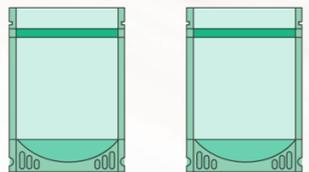

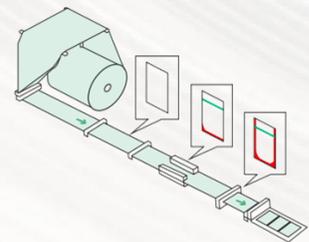

2-side-seal pouches from 1 web without and with zipper

3-side-seal pouches from 1 web without and with zipper

Stand-up pouches from 1 web without and with zipper

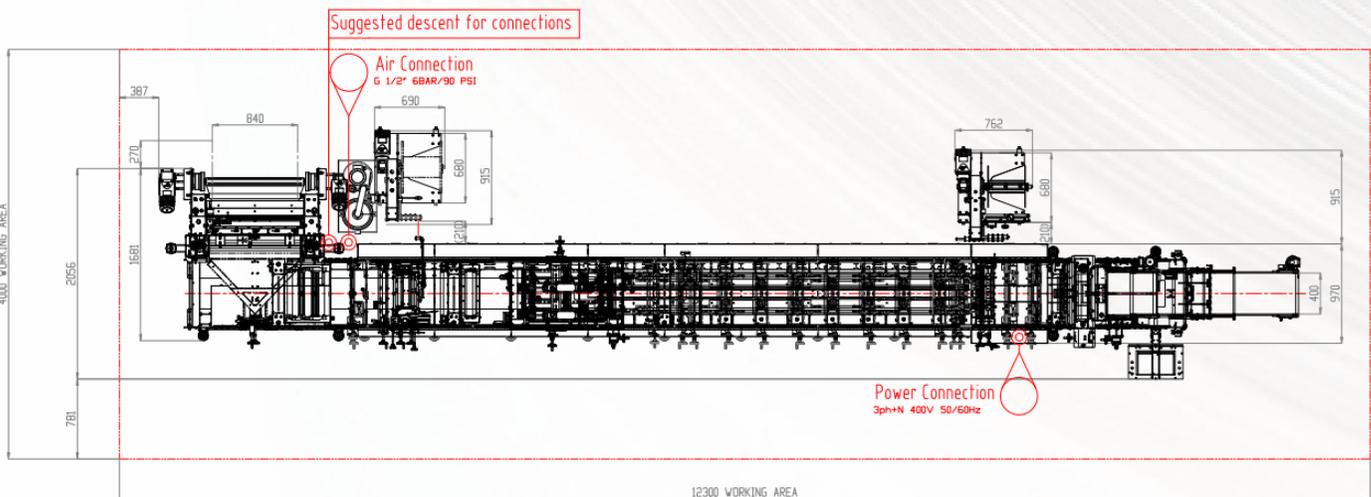

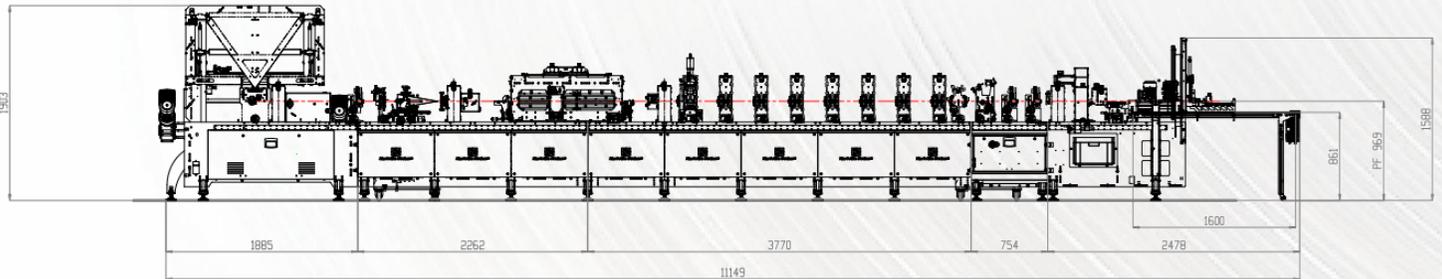

TECHNICAL CHARACTERISTICS*

*Basic machine configuration
