

KS-SUP-400-SG

The multi format

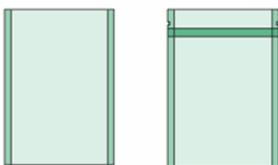

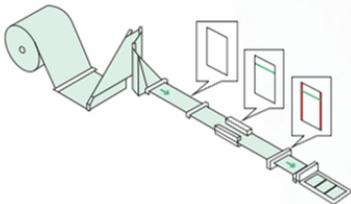

MINIMUM **8** SERVO SYSTEM

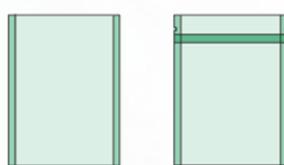

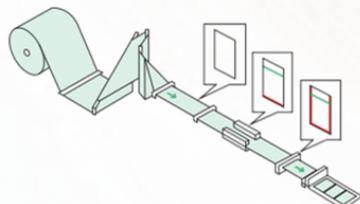

A compact pouch-making solution built to handle standard materials, including mono-materials like PE and PP, with optional support for paper-based substrates. Optimized for efficient short to long production runs, it offers quick changeovers and minimal material waste, boosting productivity and improving profitability. Its versatile design enables the production of multiple pouch formats, ranging from flat pouches to side-gusset bags and stand-up pouches.

TYPES OF POUCHES

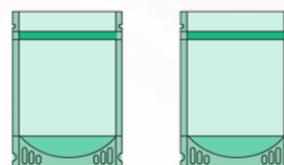

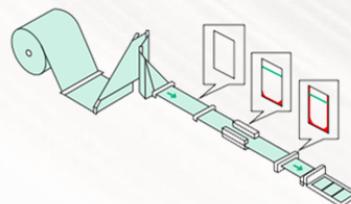

2-side-seal pouches from 1 web without and with zipper

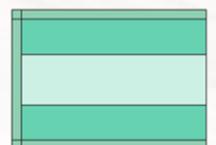

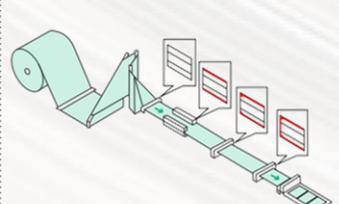

3-side-seal pouches from 1 web without and with zipper

Stand-up pouches from 1 web without and with zipper

Side gusset pouches from 1 web
