

KS-SUP-600

The big brother

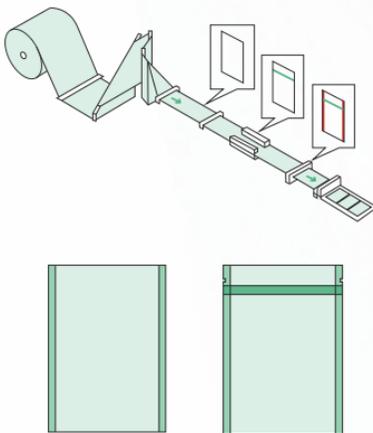

MINIMUM **8** SERVO SYSTEM

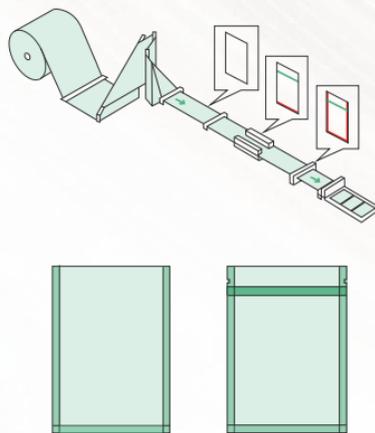

This **pouch-making machine**, tailored for conventional printing workflows, delivers fast changeovers and is well-suited for all production run lengths. Capable of processing standard laminates, co-extruded films, and mono-materials, its modular design ensures efficient handling of multiple pouch formats, including large sizes and multi-lane configurations.

TYPES OF POUCHES

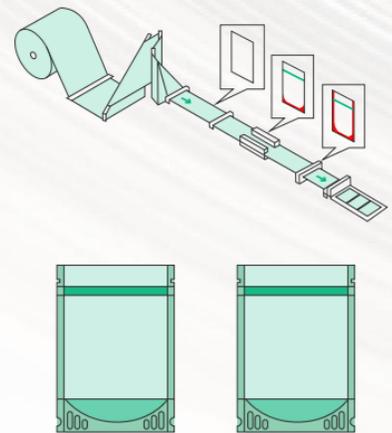

2-side-seal pouches from 1 web without and with zipper

3-side-seal pouches from 1 web without and with zipper

Stand-up pouches from 1 web without and with zipper

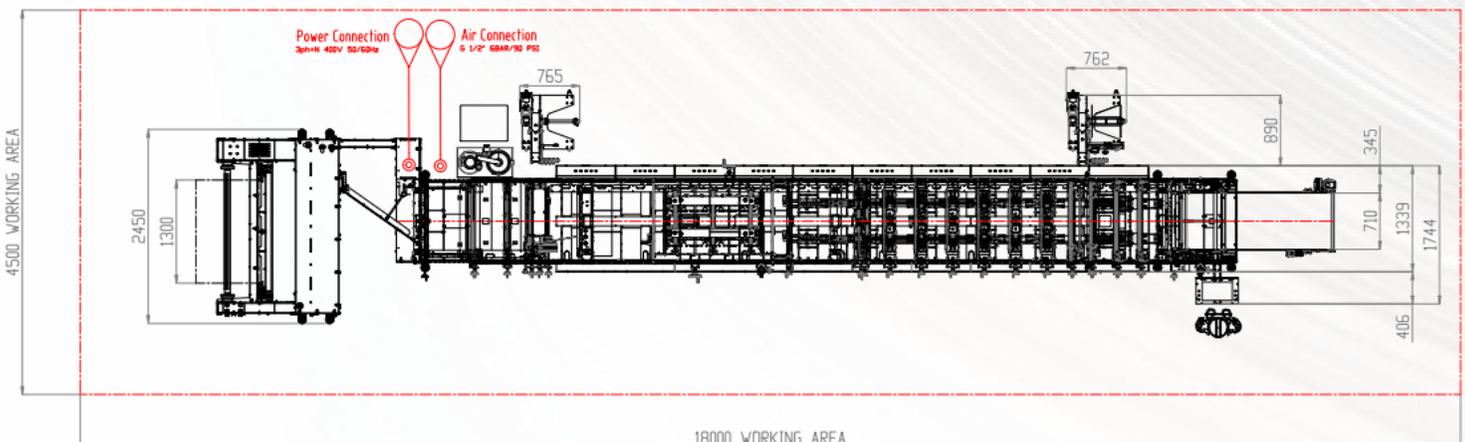

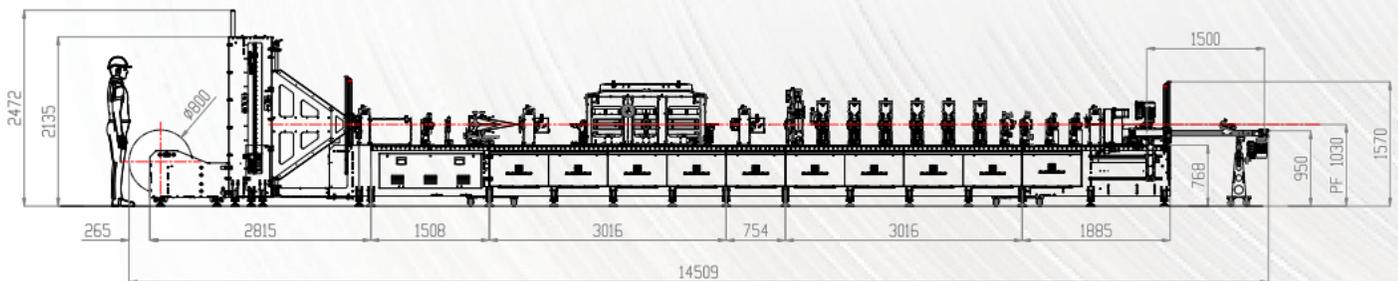

TECHNICAL CHARACTERISTICS*

Web width	1.300 mm
Pouch height	80 - 600mm
Pouch width	80 – 660 mm
Gusset width	50 – 190 mm
Material thickness	55 - 200μ
Mechanical speed	250 cpm
Type of materials	Laminated Films, Mono-Materials, Co-Extruded Films and optionally Paper-Based
Machine dimensions (L x W x H)	14.500 x 2.500 x 2.500mm

*Basic machine configuration
